

The Combined Introductory Facial Aesthetic Training Pack

Wigmore Medical Training would like to offer you the opportunity of receiving training on a group of subjects which are vital to any facial aesthetic professional seeking to enhance their practice and increase revenue.

This 3-day programme using well known brands covers popular topics such as Chemical Peels, Dermal Fillers and Botulinum Toxins. Although any of these days may be booked individually if you already have experience in a particular topic, the benefit of this package is that the overall cost is 10% less and the course is completed in three back-to-back days.

Day 1: Discover dermatology developed skincare recommended and highly regarded by experts around the world. NeoStrata is a scientifically advanced clinically proven skincare range recommended by skincare practitioners to visibly improve the skin. As well as being potent anti-ageing products, NeoStrata has been proven effective across a wide variety of skin types and conditions including photo ageing, rosacea, hyper pigmentation, severe dryness and acne.

Day 2: An introduction to Facial Aesthetics and treatments with Botulinum Toxin Type A. The first half of the day is devoted to facial rejuvenation finishing with hands-on injection practical under the supervision of our highly experienced practitioner. The second section of the day will focus on roundtable discussions and further practicals. This will lead on to a brief introduction into methods of implementing such aesthetic treatments into your clinic and the most beneficial ways to introduce treatments to your existing clients. There will be a question paper after the first practical session.

Day 3: This is a further opportunity to enhance your skills with dermal fillers for facial contouring. Theory of fillers will be followed by practical demonstration through a trained representative from Galderma, the manufacturer of the popular fillers Restylane®, Restylane Lipp®, Restylane Vital® and Perlane®. You will also have a second question test on the subject of fillers and the use for facial aesthetics.

The number of attendees is limited to **four for toxins and six for the other two courses**, enabling a more intense level of training and interaction. All participants will receive a Certificate of Attendance, which is proof of their attendance and sufficient to acquire medical insurance. The certificate is recognised by all the major insurance groups and fellow associations.

This pack is only available to medical practitioners with current GMC, GDC and NMC registration. However, if you only wish to attend the Skin Care course an NVQ with a minimum Level 3 is acceptable.

Agenda

Day 1 – Introduction to Skincare with NeoStrata

The NeoStrata course is designed as a complete overview of the NeoStrata company, technology, science and products. The day is divided into two parts, the morning session dedicated to product training including the clinical data behind the ingredients and hands on trying and testing each of the NeoStrata products. The afternoon session is mostly practical hands on NeoStrata ProSystem peels comprising of free Glycolic, mandelic and citric acid treatments, suitable for qualified professional use only.

Delegates receive a certificate for the day. Upon registration, delegates are sent pre reading material and on the day everyone receives their own comprehensive training manual with an extended presentation for future reference and reading. At the end of the course, delegates will understand the NeoStrata core technology ingredients and how they can benefit the skin. Delegates will be able to understand the NeoStrata ranges and how they are relevant to different skin types and demographics, and which are the "hero products" and "best sellers".

Delegates will be able to recommend the NeoStrata ProSystem peels for a range of skin conditions to improve the Skin Fitness of clients.

It is preferable to bring a model along for the peel session, they will need to have been prepared for 14 days in advance with a NeoStrata Glycolic product
